

We will be having another interactive meeting in May. Dr. Karl Greene, a past president and extremely knowledgeable collector, will speak on "Everything You Always Wanted to Know About Mounting Tillandsias." BSSF will be providing plants and materials for everyone in attendance to take home.

## President's Message

Presidents Message

I hope all enjoyed Mother's Day!

I want to thank everyone who helped with our fund raiser at the YMCA. It's not just about raising money for our expenses but those who participated enjoyed the fellowship with each other and the community outreach. It's good to get our society out there in front of the Public. We also had a fun field trip to Mounts Botanical Garden for those who attended. We plan to do more outings like this in the future and give back to our members. We have a great interactive meeting coming up Tuesday so don't miss it. Many exciting things are planned in the future so please keep inviting your friends and family

Tina Severson

### ABOUT THE SPEAKER

Dr. Karl Green lived on a dairy farm in New Jersey until he was 5 years old. The family moved to Brooklyn, N.Y. where he grew up and received his education through medical school. After his residency he joined the U.S. Air Force where he served as an orthopedic surgeon. He was stationed for a while at Homestead Air Force Base. After leaving the Air Force he settled in Miami and practiced orthopedic surgery until his retirement in 2000.

He became interested in bromeliads in 1995 when his wife, Kris, purchased an *Orthophytum gurkenii* and

an *Aechmea purpureo-rosea*, plants of which he still has specimens. He joined BSSF shortly thereafter and became very active in the club, serving three terms as president. After he was introduced to Elton Leme, a Brazilian judge and renowned bromeliad collector, he traveled to Brazil, and they went on collecting trips in 1999, 2000, and 2006. On one of the trips to Brazil he met Luis Nevares Felipe and brought back 200 different species of bromeliads in a single suitcase. Through Sr. Felipe, Dr. Green was introduced to Roberto Menescal who generously shared many plants from his private collection.

It's absolutely a fact that the bromeliad bug bit Dr. Green. Over the years he had the good fortune to have developed great friendships with Wally Berg (a Floridian), John Anderson (a Texan) and Harry Luther (Sarasota-Selby Gardens, director of the Bromeliad Identification center, speaker for BSSF in years gone by). Descendants of many of the plants these men and others have shared with Dr. Green are in his current collection.

One of the great pleasures of his experiences with bromeliads is having been able to share his own plants with collectors and growers through the years. For the past 27 years or so, Dr. Green has leased space and maintained a species collection at the Bullis Bromeliad Nursery in Homestead, FL that at one time has had over one thousand different bromeliad species. He states, "I am forever grateful to them for allowing me to keep my bromeliad collection there." "I have

been blessed. I have tried to show my appreciation for those who so generously gave their time and treasures to me by passing them on to others." Fun Facts: Some of the bromeliads named for Dr. Green's friends: *Guz. bergii*, *Ae. andersonii*, *Ae. andersoniana*, new Genus *Lutheria*, *Vr. lutheriana*, *Vr. lutheri*, *Vr. eltoniana*, new Genus *Lemeltonia*, *Neo. neavaresii*, *Neo. menescalii*, *Neo. kautskii*

## VOLUNTEERS NEEDED

### FOR RAFFLE TABLE

We are in need of volunteers to supply our Raffle Table. Cut some pups from 8-10 of your plants and bring them to the meeting. If you are uncomfortable with public speaking someone else can talk about the plants if they are labelled. You receive 80% of total sales. Contact Alex Bello 239-223-6155 or [Bellotropicals@yahoo.com](mailto:Bellotropicals@yahoo.com)

## WORLD CONFERENCE

The World Conference is almost here. The BSI is looking for volunteers for almost everything. Take your pick. The volunteer sign up form is attached at the end of the newsletter. The link is BSI World Conference 2022 in Sarasota, Florida. If you would like to enter a plant, please contact our FCBS rep, Mike Michalski, for the proper forms. Any problems, please contact Patty Gonzalez.

## DEAR DR. BROM

Dear Dr. Brom,

Why should I attend the World Conference when there are plenty of bromeliad sellers right here in Miami?

You never know until you go but it is wonderful to see how many people the world over love bromeliads. The speakers would be the number one reason. The speakers come from all over the world. These are people who have had plants and even genera named after them.

Graeme Barclay is a hybridizer and past president of the Bromeliad Society of New Zealand who has a 3 level greenhouse.

Eric Gouda is a professor in the department of biology at the University of Utrecht in the Netherlands. He is curator of the Utrecht University Botanic Garden. He is a prolific author and is currently working on the Encyclopedia of Bromeliads. The new genera, Goudaea, is named in his honor.

The next reason would be the plants. Plants from everywhere. The World Conference is where new species and hybrids are introduced. So if you want the newest, hottest plants this is where you will find them. The plant sale is enormous and the auction is very special. There are two behind the scenes tours of nurseries we have all heard of, Tropicflora and Michael's Bromeliads. A

behind the scenes tour of Marie Selby Botanic Gardens is also offered. And the judged plant show is spectacular.

But the conference is expensive. Registration until May 25 is \$335. So how can you enjoy some of the highlights on a budget?

The show and sale is open to the public on Friday, June 10 and Saturday, June 11. That means no registration fee if you go on those two days. You can also attend the auction Friday evening.

You cannot hear the speakers, attend the banquet or go on the behind the scenes tours.

But both the nurseries and Marie Selby Gardens are open to the public.

You could plan a day trip, visit the show and sale and one nursery and return home.

Or you could spend the night at a less expensive hotel maybe on the outskirts of Sarasota. That way you could visit the show and sale and the auction on Friday, and visit the 2 nurseries and Marie Selby Gardens on Saturday.

Either way you are guaranteed a wonderful time filled with beautiful plants.

Registration information as well as the schedule are attached at the end of the Bromeliadvisory.

## FIELD TRIP

Our field trip to Mounts Botanical Garden on April 23 was a rousing success. There were plenty of vendors including Bromeliad Society of Broward County and the Palm Beach county society also. The Mounts nursery was open for sales as was their thrift shop. We all blew our budgets but left happy. One of the most interesting aspects of the sale was the exhibit of Lego sculptures throughout the garden. That exhibit has just opened at Fairchild. We then had a great lunch at the old fashioned diner Gun Club Cafe. The day was topped off with a visit to Living Colors nursery filled with pots, sculptures and plants. This trip could be repeated next year.

## PLANT SALE AT YMCA

Weather was the star at our plant sale at the YMCA on April 30. Torrential rains throughout the night and all morning hampered sales which picked up in the afternoon. The sale will be continued this Saturday, May 7, 9 am to 1 pm, at the corner of SW 136 St. and 97 Avenue. This is a popular spot for sales according to our president, Tina Severson, who will run the sale. Call her if you would like to help. Any leftover plants will be available for sale at our May meeting.

## BEWARE OF EMAILS

If you receive an email purportedly from the BSSF president or another officer asking you to purchase gift cards for some event or charity we support, please ignore. We, along with several other plant societies, have a longstanding problem with a cybercrook hijacking officer emails. We will never ask you to buy gift cards.

## FROM LAST MONTH'S MEETING

## SILENT AUCTION AND MEMBER PLANT SALE RULES

When we have a speaker bringing plants, we will only allow 4 plants for silent auction in order to give our speakers who travel here and pack up their plants a fair chance to sell their plants. If you would like to sell a plant at the silent auction you will need to contact Rene Izquierdo (rcizquierdo@bellsouth.net) or 305 282 9333 and he will let you know if there is an opening for your plants. You will be paid 80% of the sale price and BSSF will receive 20%.

We will likewise defer to our speakers for member plant sales when we have a speaker bringing plants. You will again be paid 80% of the sales price. To participate in member plant sales, please contact Alex Bello (bellotropicals@yahoo.com) or 239 223 6155 to schedule your sale so that we are not overrun with plants.

We appreciate your cooperation so that there will be no hard feelings if members bring plants and are turned away because we have a speaker who brought plants to sell.

SILENT AUCTION: Rene Izquierdo  
(rcizquierdo@bellsouth.net)  
305 282 9333

MEMBER PLANT SALES:  
Alex Bello (bellotropicals @
